

Press Release
14.05.2020

WPO's GreenToken Public Offering obtains a visa from the AMF. This is the first approval to be issued by an independent financial market authority to an ICO in the energy sector.

The public token offering is launched by French company WPO following the receipt of approval N°ICO.20-189, from the French Financial Markets Authority (AMF) on the 12.05.2020 until the 12.11.2020. The GreenToken is a digital asset now 20 as a utility token to be used to finance a new business model for the energy sector.

Founded 12 years ago, WPO is a leading independent renewable energy services platform in Europe.

A true pioneer in renewable energy and data digitalisation, WPO is launching the GreenToken Project, a powerful new tool for the European economy and an accelerator for the Energy Transition.

WPO aims to raise 10 million Euros by this public token offering, for which WPO has received the approval from the AMF.

A public token offering is an alternative source of public funding (similar to crowdfunding) using Distributed Ledger Technologies (or Blockchain).

Public token offerings offer tokens that can be used in the future to acquire goods and services.

GreenTokens will be used to acquire and value both goods and services from WPO and the GreenToken Network, a professional community actively engaged in the operation and optimisation of renewable energies.

It will be possible to pay for these goods and services with GreenTokens and/or legal tender currency.

It is possible to pre-order GreenTokens online now ([here](#))

The public offering of GreenTokens will take place from 8th September to 12th November 2020.

From 1st December 2020, GreenTokens will be freely traded on the French exchange platform SAVITAR or directly within the GreenToken Network.

« This approval from the AMF is a key milestone to bring clarity and trust for investors. We are very proud to receive this approval and publicly offer this incredibly innovative tool, the GreenToken, to immediately invigorate and optimise the production of renewable energy. »

Barthélémy Rouer, CEO and founder of WPO

About WPO

Established in 2008, WPO is a leader in independent asset management and associated specialized services for wind and solar power in Europe. The company oversees 600 production sites in 12 European countries with a capacity of more than 5 gigawatts, i.e. 1700 wind turbines and 12 million photovoltaic modules. Today, WPO contributes to the production of electricity from renewable sources for the equivalent of about two million people, almost the population of intramural Paris. It offers technical, commercial, and financial management solutions, and holds among its clients and stakeholders more than 360 companies, including investment funds, insurers, reinsurers, developers, banks, mixed economy companies and independent electricity producers.

In a world where energy management is becoming increasingly decentralized and complex, WPO's main objective is to ensure energy sustainability and create the conditions for greater trust through issuing the first fully-traceable energy production certificates from reliable renewable sources on the world market.

WPO is listed on the Financial Times FT-1000 2017 as one of Europe's 1000 Fastest Growing Companies

General warning

Investment in an initial coin offering as defined in Article L. 552-3 of the Monetary and Financial Code entails risks of a partial or complete loss of the investment. No guarantee is given regarding the liquidity of the tokens acquired in the offering, the existence of a secondary market for said tokens, the value of the tokens acquired in the offering and the exchange value of said tokens in legal currency. Tokens do not constitute financial instruments within the meaning of Article L. 211-1 of the Monetary and Financial Code and confer no other right than those described in the information document. In addition, the regulatory framework applicable to the offering and to the tokens as well as the tax regime applicable to the holding of tokens are not defined to date in certain jurisdictions.

The approval issued by the AMF concerns only the offering covered by this information document. As from the end of the offering, the AMF will not monitor the issuer or its project. Any communications subsequent to the offering and relating thereto will not be reviewed by the AMF.

The subscriber is invited to read section 4 "risk factors" of the information document.
