Geneviève Féron-Creuzet nominated to head the GreenToken Investment Advisory Committee.

Geneviève Féron-Creuzet was nominated for a three-year term as President of the GreenToken Investment Advisory Committee. This independent body advises WPO's management on the proper governance of the GreenToken Project and Production Data.

WPO is a leader in independent asset management and associated specialized services for wind and solar power in Europe. In the context of its strategic transformation and the launch of the GreenToken Project, WPO is putting up an Investment Advisory Committee headed by Geneviève Féron-Creuzet.

Geneviève Féron-Creuzet is a pioneer in sustainable finance and one of the most important advocates for an ecological transition in France. Founder and CEO of the consulting firm Casabee, she was, from 2005 to 2013, Director for Sustainable Development of the Eiffage and Veolia groups. Author of Crépuscule Fossile (2015), Geneviève Féron-Creuzet is also vice-president of both Foundation for Nature and Mankind and The Shift Project.

The Investment Advisory Committee she presides over is an independent body charged with advising WPO and publishing recommendations on the issuance and sale to the public of GreenTokens. Once a year the Committee will publish an activity report of the GreenToken Project over the past period. This activity report will inform the public of the issuance, sale and stocks of GreenTokens and GoCert certificates and the use of invested funds.

The GreenTokens will be issued after the Public Token Offering (visa AMF N°[ICO.20-189](#)) WPO will be launching on 8 September 2020. This operation is the first Public Token Offering of the Energy sector to be approved by an independent financial market authority.

« I am committed to oversee governance of the GreenToken, independently from WPO. *Both sustainable finance and the energy sector as a whole need new tools, such as the GreenToken, to rise to the challenge of the energy transition. The coming months are crucial, and you can rely on my commitment.* »

Geneviève Féron-Creuzet, President of the GreenToken Investment Advisory Committee

« *Geneviève Féron-Creuzet has a unique experience and an unwavering commitment to the energy transition. On behalf of WPO and all the stakeholders of the GreenToken project, I want to thank her and bid her welcome aboard this project* »

Barthélémy Rouer, CEO of WPO

About WPO

Established in 2008, WPO is a leader in independent asset management and associated specialized services for wind and solar power in Europe. The company oversees 600 production sites in 12 European countries with a capacity of more than 5 gigawatts, i.e. 1700 wind turbines and 12 million photovoltaic modules. Today, WPO contributes to the production of electricity from renewable sources for the equivalent of about two million people, almost the population of intramural Paris. It offers technical, commercial, and financial management solutions, and holds among its clients and stakeholders more than 360 companies, including investment funds, insurers, reinsurers, developers, banks, mixed economy companies and independent electricity producers. In a world where energy management is becoming increasingly decentralized and complex, WPO's main objective is to ensure energy sustainability and create the conditions for greater trust through issuing the first fully-traceable energy production certificates from reliable renewable sources on the world market. WPO is listed on the Financial Times FT-1000 2017 as one of Europe's 1000 Fastest Growing Companies

General warning

Investment in an initial coin offering as defined in Article L. 552-3 of the Monetary and Financial Code entails risks of a partial or complete loss of the investment. No guarantee is given regarding the liquidity of the tokens acquired in the offering, the existence of a secondary market for said tokens, the value of the tokens acquired in the offering and the exchange value of said tokens in legal currency. Tokens do not constitute financial instruments within the meaning of Article L. 211-1 of the Monetary and Financial Code and confer no other right than those described in the information document. In addition, the regulatory framework applicable to the offering and to the tokens as well as the tax regime applicable to the holding of tokens are not defined to date in certain jurisdictions. The approval issued by the AMF concerns only the offering covered by this information document. As from the end of the offering, the AMF will not monitor the issuer or its project. Any communications subsequent to the offering and relating thereto will not be reviewed by the AMF. The subscriber is invited to read section 4 "risk factors" of the information document.
